Easter Bingo

Complete 50-card game pack • Instructions

What is included

50 unique player cards, cut-out caller tiles, 10 shuffled calling orders and a caller checklist. All included in this PDF.

Set up

Print the pages you need on A4 paper. Give each player one card and a pencil or counters. Choose one calling method: cut-out tiles drawn from a bag, or one of the 10 random caller sheets.

How to call

For cut-out play, cut apart the caller tiles, mix them in a bag and draw one at a time. For no-cut play, choose a random caller sheet and read left to right, row by row. Do not skip or repeat entries.

How to win

Before the game starts, agree on the winning pattern: any complete horizontal, vertical or diagonal line, four corners, or all 16 spaces (full card). For four corners, the four corner spaces must all be called.

Check a win

When someone calls BINGO, pause the game. Check each marked space in the winning pattern against the entries already called. Resume if the claim is incorrect.

Important

This is a matching game. Every player card uses 16 entries drawn from the caller pool. A full-card win may take until late in the calling order. For younger players, a single line is recommended.
